

Society of American Military Engineers Meeting
February 23, 2012 - 11:30am
Highland Park Country Club

The February Lake Michigan Post meeting will feature **William Anderson, Director and Chief Operating Officer of the Infrastructure Security Partnership (TISP)**. SAME is the secretariat of The Infrastructure Security Partnership.

Mr. Anderson will present the 2011 edition of the **Regional Disaster Resilience Guide for Developing an Action Plan**. The *RDR Guide* is a roadmap that describes a step-by-step process that can be customized to develop a cross-sector, multi-jurisdiction strategy to improve capabilities to deal with any major incident or disaster. It outlines a multi-step approach to develop a regional resilience Action Plan through identifying and bringing together in partnership the necessary broad stakeholder base of public, private and non-profit organizations; conducting workshops, a baseline assessment of capabilities and needs; an interdependencies exercise; and other activities to develop a stakeholder-validated resilience roadmap.
